SUMMARY

First-year Engineering student at Assiut University with experience in full-stack development and active involvement in Formula Student motorsport activities. Strong team player with problem-solving abilities and ability to work under pressure. Eager to gain practical experience in an international engineering environment.

EDUCATION

Assiut University <i>Engineering</i>	2025 – Present Assuit, Egypt
--	---------------------------------

SKILLS

- | | | |
|---|--|-------------------------------------|
| • Engineering Problem Solving | • Team Collaboration in Technical Projects | • Communication |
| • Time management | • Mern-Stack | • Microsoft Word, Excel, PowerPoint |
| • Engineering Exposure | • SolidWorks | • Aerodynamics fundamentals |
| • Design collaboration in engineering teams | • Force Analysis & Free Body Diagrams | • Data Handling / Logical Thinking |
| • Basic Vehicle Dynamics | | |

PROFESSIONAL EXPERIENCE

Assuit Motorsport <i>Mechanical Member</i>	2026 – Present
--	----------------

As a Mechanical Member of the Assiut Motorsport Team, I contributed to the development of a Formula Student vehicle within a multidisciplinary engineering team. I participated in design discussions and collaborative problem-solving sessions, working closely with team members to achieve engineering objectives. This experience helped me develop strong teamwork skills and gain practical exposure to working under deadlines and high-pressure environments.
